

ANIZ WIZ GOUKI (HMYAT)

UI/UX DESIGNER & FULL-STACK DEVELOPER — PORTFOLIO PROJECTS DOCUMENTATION

A curated overview of end-to-end design and engineering projects — spanning Design Thinking, high-fidelity Figma user flows and design systems, production React frontend implementation, scalable cloud infrastructure (Supabase, Render), real-time WebSockets, and active cross-platform mobile app expansion.

GitHub: github.com/hmyat3366-ai

Focus: Design-to-Code & Full-Stack SaaS

Executive Projects Summary

PROJECT	CATEGORY	TIMELINE / ROLE	LIVE WEBSITE	FIGMA SOURCE
Xia Chat	SaaS OmniChannel	July 2026 – Ongoing UI/UX & Full-Stack	Launch Live	Figma File
Skyline Agency	Digital Agency	May 2026 (3 Wks) Visual Identity & Dev	Launch Live	Figma File
DMAR App	Community Platform	Apr 2026 (6 Wks) Data Viz & System	Launch Live	Figma File
Aura Real Estate	Luxury Real Estate	Dec 2025 (4 Wks) Research & Frontend	Launch Live	Figma File

01. XIA CHAT — AI-Assisted Customer Support SaaS

SAAS OMNICHANNEL • 2026 JULY

Xia Chat is a comprehensive omnichannel customer support SaaS platform designed and engineered from the ground up to unify website visitor engagement, automated AI assistance, and real-time live agent support in a single workspace.

Links: Live Site: <https://xiachatv3.vercel.app/> | Figma Workspace: [View Figma File](#)
Tech Stack: Figma, React, Next.js, TypeScript, Tailwind CSS, React Native, Supabase, Render, Node.js, Express, Socket.IO, Stripe, Vercel, Antigravity AI

Figma UI/UX & State Architecture	Full-Stack Engineering & Architecture
User Flows & State Mapping: Comprehensive user journeys, conversation life cycles, visitor tracking, and real-time agent handoff states. High-Fidelity Design System: Scalable component library for both admin dashboard and floating customer chat widget with responsive tokens. Interaction Prototyping: Typing indicators, online badges, lead capture modals, and dynamic message statuses.	Pixel-Perfect Frontend: Translated Figma UI into production React/Next.js components with 1:1 pixel parity & embeddable script. Supabase & Render Cloud: Relational database with Row-Level Security, real-time subscriptions, and Express API on Render. WebSockets & Payments: Bidirectional Socket.IO messaging, Stripe billing, Google OAuth, and zero-downtime CI/CD.

[IN ACTIVE DEVELOPMENT] Mobile App Expansion (iOS & Android):
Currently engineering dedicated cross-platform mobile apps with **React Native & Supabase Realtime**. Enables support agents to receive instant background push notifications, handle visitor queries on-the-go, and sync inbox conversations with zero latency.

02. SKYLINE AGENCY — Bold Brutalist Agency Portfolio

DIGITAL AGENCY • 2026 MAY

A playground for unconventional web design, pushing brutalist aesthetics with oversized typography, neon accents, and complex scroll-triggered interactions.

- **Live Website:** <https://skylineagc.vercel.app/> | **Figma File:** [View on Figma](#)
- **Key Techniques:** GSAP ScrollTrigger section pinning, infinite looping marquee math, strict CSS performance tuning, and high-contrast brutalist color palettes.
- **Tools:** React, GSAP, Tailwind CSS, Antigravity AI, Figma.

03. DMAR APP — Financial Dashboard & Mascot Branding

COMMUNITY PLATFORM • 2026 APRIL

A vibrant financial dashboard designed to make dense metrics approachable through intuitive charts and bespoke mascot branding.

- **Live Website:** <https://dmars.vercel.app/> | **Figma File:** [View on Figma](#)
- **Key Techniques:** Dynamic Chart.js configuration, custom design system in Figma with dark neon themes, CSS Grid responsiveness, and dynamic multi-widget state filtering.
- **Tools:** React, Chart.js, Tailwind CSS, Antigravity AI, Figma.

04. AURA REAL ESTATE — Luxury Architectural Platform

LUXURY REAL ESTATE • 2025 DEC

A pixel-perfect luxury real estate showcase prioritizing visual storytelling, editorial typography, and seamless property browsing.

- **Live Website:** <https://aurarealestate.vercel.app/> | **Figma File:** [View on Figma](#)
- **Key Techniques:** 12-column structural grid, monochromatic luxury typography hierarchy, interactive property gallery transitions, and GSAP scroll-triggered parallax.
- **Tools:** React, Tailwind CSS, Figma, Antigravity AI.

Core Capabilities & Experience Overview

SKILLS & TOOLING	EXPERIENCE TIMELINE
1. User Research: Pain point translation, interviews, usability tests, competitive benchmarks (Maze, FigJam). 2. UI/UX Design: Design systems, auto layout, accessible typography tokens, component libraries (Figma). 3. Prototyping: Micro-interactions, animated states, rapid usability validation (Figma, Framer, GSAP). 4. Frontend Dev: 1:1 pixel parity, production React, Next.js, TypeScript, Tailwind, GSAP ScrollTrigger. 5. Backend & Cloud: Supabase relational data & RLS, Render cloud deployments, WebSockets, REST APIs.	UI/UX Internship (Dec 2025 — Mar 2026): Managed end-to-end design: research, wireframing, high-fidelity UI in Figma, developer handoff, and client reviews. AI-Assisted Dev & SaaS (Jan 2026 — Present): Bridging design to code: translating Figma into production React web apps, full-stack SaaS backends, and active cross-platform mobile apps.
